

PS for Electric Motor Housings

Test bench with 2 clamping units and automatic test cycle

- With **automatic** test cycle (Siemens control)
- Stationary
- Test medium: Water
- Max. test pressure: 30 bar (435 psi)
- Clear and uncomplicated operation
- Proportional control to protect the housing against deformation.
The clamping pressure is increased in proportion with the increase in test pressure.
- Short test cycles, quick retooling

Subject to technical change.
